Article published on June 6th 2012 | Business

Indiaâ€™s commercial vehicle market has grown by leaps and bounds due to economic liberalization, and the three-wheelers segment has bright prospects as production and sales in both passenger and goods carriersâ€™ categories are reaching new heights. India is the worldâ€™s largest three-wheeler market, with around 60% of vehicles in passenger carriersâ€™ category. For the last few years, the three-wheeler passenger carrier sales are growing impressively. According to our new research report, many players are planning to expand their production capacities in this growing segment.

Our report, â€œIndia Three Wheelers Marketâ€•, observed that the three-wheeler passenger carrier production has grown incessantly to meet the demand for such vehicles in tier-II and tier-III cities. Many players are planning to introduce new vehicles with more advanced features under this segment. It is anticipated that the three-wheeler passenger carriersâ€™ sales will increase at a CAGR of over 13% during 2011-12 to 2014-15. http://www.bharatbook.com/market-research-reports/transportation-market-research-report/india-three-wheelers-market.html

The report has studied Indiaâ€™s three-wheeler market from various perspectives. It facilitates information on production, sales, exports and key players in each segment - passenger carriers and goods carriers. With a view to understanding the industry's competitive landscape, we have included profiles of key players like Bajaj Auto and Piaggio Vehicles in our comprehensive research study.
