Introducing the New Smittybilt Winch Line by Windsor Hall

Article published on May 4th 2012 | Business

There can be any number of reasons for the owner of 4 wheel drive vehicle to want to add a reliable winch to the vehicle. And when it comes to reliable and dependable vehicle winches, no one compares to Smittybilt. This manufacturer of high-quality winches has been in business for ages and their reputation is sterling among those who use their products. Smittybilt offers a variety of winches, one of which is sure to fit any need and budget.

The Smittybilt XRC line of winches is the place to start. The line includes winches of all sizes including the famous XRC 8 and now the XRC 3K, 10, and 12 series. These three new units encompass a pull line ranging from 3,000 to 12,000 lb. With this line up, vehicle owners are sure to find the perfect winch.

Smittybilt XRC 3K Winch:

The Smittybilt XRC 3K winch features an outstanding 3,000 lb. of pulling capacity, plus a 3.9 hp permanent-magnet motor and 136:1 gear ratio. This affordable winch is a reliable, durable option for light-duty jobs and ATVs or UTVs.

Smittybilt XRC 8 Winch:

Many 4 wheel drive vehicle owners simply love the new Smittybilt XRC-8 Winch which includes all the best features they want in a winch. Every XRC-8 (8,000 LB.) winch features a 5.5HP Series Wound Motor and a Planetary Gear System with 172.8:1 gear ratio that will deliver power and reliability. In terms of muscle and dependability that will get you out of any situation, the Smittybilt XRC-8 Winch is the heavy-duty winche you want.

Smittybilt XRC 8 Comp-Series:

While the XRC 8 is a great choice, for those who want the best, consider the XRC 8 Comp-Series. This is a premium version of the XRC 8 and it has a planetary gear system with a 172.8:1 gear ratio that ensures smooth, reliable operation. A powerful 5.5-hp series-wound motor provides pulling capacity of up to 8,000-lb.

Smittybilt XRC 10 Winch:

For the latest winch technology, consider the Smittybilt XRC 10. This top notch winch is equipped with a 5.5-hp, series-wound motor as well as a powerful, three-stage planetary gear system that consistently delivers reliable performance which includes overheat recovery. Each winch comes with a remote control, hook, solenoid box, and roller fairlead.

Smittybilt XRC 10 Comp-Series Winch:

This is the premium version of the XRC 10 and it features a planetary gear system with a 218:1 gear ratio along with a powerful, 5.5-hp series-wound motor. It has a pulling capacity of 10,000 lb. The winch is made with premium materials for long-lasting reliability in even the most rigorous applications.

Smittybilt XRC 12 Winch:

This brand-new Smittybilt XRC 12 winch carries a heavy-duty, 6.6 hp, state-of-the-art, series-wound motor and a superb three-stage planetary gear system with 265:1 gear ratio for quick line-pull speed. This incredible winch is one of the most powerful in the Smittybilit XRC series and can accommodate up to 12,000 lb.
