Know More About Engraved Crystal by [Julia Roger](#)

Article published on August 9th 2012 | [Business](#)

Crystals are one of the best and the most used accessories to beautify a product. They are engraved in the awards and photo frames, which enhances the whole look of the product. The Engraved Crystal give a 3D look to a photo frame, which gives great look to your photos. These engraved crystals are available in varied shapes and sizes. Many people give great importance to the type and shape of the crystal; these can be diamond shaped, iceberg shaped, cubed or flat panel. You can also use the engraving technology to personalize your gift for your loved ones too.

There are many organizations that use Engraved Awards to recognize the outstanding performance of the employee. It is a latest trend wherein the companies use the engraved awards for due recognition of the employees. These awards are generally heavy and are made by using the finest optical crystals. They are regarded as the symbol of recognition and symbol of most prestigious event. The crystal embellishment makes the awards look stunning. These awards are made in both 2D and 3D impression. The photo is embedded in the center of the crystal and 2D and 3D look. There are many service providers and printing services that take up these works. In the recent times there are many online printing services who take up these work.
