Hyundai has always made awesome cars by keeping in mind common man's demand and affordability. Here are some latest Hyundai cars in India 2012.

Hyundai i20 1.4 CRDi Magna

It's a great car that is very much smooth on the rugged road and not only on the smooth roads. It is equipped with the great features and this car is available in five variants. In India it will cost Rs 633317/- . it is not too costly but can be said mid range car which is also easily affordable to many people.

Hyundai Accent Executive

It's a great car which gives ample of space to the passengers. This car is also very much stylish and looks really cool at the time of driving. There are so many features are attached to this car to make more successful in the market. It will cost only Rs 499900/-. One thing that might disappoint you is that this car does not have an alloy wheel.

Hyundai Verna VTVT

Hyundai Verna a car that is challenging many cars with it's awesome performance, you can actually enjoy great advance technology in this car. There are so many features like power windows, central locking, clutch lock system and many other things that makes it different and far better from other cars. You can avail all this in Rs 657364 in India. The driving quality of this car is really stunning.

Hyundai Santro Xing GL

Santro a car that does not need any introduction but this Hyundai Santro Xing GL is something else and is full of stunning features that makes it different from the other Santro variants. Some of it's amazing features are Dual Horn, Central Locking, child safety lock and many other features. Mileage that this car will be giving is amazing. It is said that on highway it will be 16.8 kmpl and on the city road it will be 11.8 kmpl which is really great. The expected cost of this car is Rs 789350/-.

Hyundai Eon

It's a nice and cute small car that will surely be loved by the small family. In fact it will be best suited for a nuclear family. It is also loaded with the decent and nice features as per it's size. It will be easy to park this car for sure. The price expected of this car is Rs 300000/-.

Hyundai Sonata Transform

This car is expected to come with a huge price tag around Rs 1462604. Though you might feel that it does not have a good mileage. Even with such a huge price tag this car has nothing special. It lacks rear wash wipers and a sun roof. It's just like another generic car.

These were the few latest cars from Hyundai automobile company.
