Looking for the Latest Epson Receipt Printer? Call UniLink Inc. by 1300golimo

Article published on December 7th 2011 | Business

Within environments in which employees must work in close proximity to customers such as the retail banking field and the restaurant industry, itâ€™s important for businesses to have solutions that allow them to quickly meet the customerâ€™s requirements in order to provide superior levels of service. For this reason, many organizations are now searching for high value solutions, such as the latest Epson receipt printer, which provide speed, consistency and reliability in one complete package. For access to these types of solutions, organizations rely upon specialists such as UniLink Inc.

Established in 1988, UniLink Inc is known as one of the most prodigious suppliers of printing and scanning equipment to the financial services industry. The companyâ€™s world class sales team has a combined 200 yearsâ€™ experience in delivering solutions that truly help organizations grow through equipment that meets their direct in-house needs.

On their website, the company showcases their wide array of products while detailing how clients can make best use of these solutions within their own working environments. Customers never have to worry about the quality of solutions on offer through UniLink Inc. This is an organization that was built to supply only the very best products to their customer base around the world. With top of the line equipment from suppliers such as Canon, Fujitsu, Burroughs and more, customers will surely find the requisite solution for their needs when they choose to select from the UniLink Inc. catalogue.

Within customer services environments where speed of transaction is the prerogative, fast, trustworthy receipt printers are essential. In the company catalogue, UniLink Inc has a vast array of solutions that fit the bill in this regard, and theyâ€™re each available at exceptionally low prices. Clients may wish to consider for example the Epson TM U220 receipt printer. This solution is the ideal product for the growing business. Thatâ€™s because itâ€™s highly compact so that it can help organizatio save on office space. In addition, itâ€™s also one of the most reliable products on the market today, and has been engineered for leading class productivity within high demands working environments.

One of the great advantages to new companies that may wish to install the Epson TM U220 within their workplaces is that this product offers high resolution two-color printing. This printing capability means that this particular Epson receipt printer is ideal for companies who wish to highlight special offers and place eye-catching logos on their receipts, making the product a high value solution for those organizations in the process of branding their business within the industry. In addition, this solution is considered to be one of the most user-friendly on the market today. Operators simply need to drop the paper into the tray to begin printing, which means that the Epson TM U220 is the perfect receipt printer for companies that are working with new hires and those with limited industry experience.

High value solutions come with the territory at UniLink Inc. Within the company, there are hundreds of equipment specialists waiting to help your business make the next step towards industry success. Contact their in-house team today and see how affordably top-of-the-line technology can be when working with one of the most trusted suppliers within the industry.
