Male grooming: a rising trend by Oliver Margarson

Article published on July 12th 2012 | Business

Gone are the days when men were only limited to shaving and hair styling, and the age old taboo is finally ending. It was always said that for men only an after shave is a final call, and anything more than that is for women. But as we said the times have changed and gentlemen too brace themselves and worry about how they look from head to toe. And are spending a lot in what we call as male grooming.

With this more and more brands are investing and expanding the range of male beauty products by moving beyond facial softeners and moisturizers. To tell the truth, it is no longer regarded sissy for men to make use of custom-made male beauty products. As a result, one can find very market being flooded with the products like male concealer, eyeliner for men, foundations, tinted lip balm, eyebrow grooming gel, lip enhancers and many more. And all the leading brands are expanding their lines to meet the boom in demand and with this the concept of male grooming is becoming a big business.

One of the most important aspects of male grooming is hairstyles. Believe it or not but the first thing we generally notice about a man is his hair and it definitely plays a key role in defining his rest of the look in our eyes. Therefore, to achieve a great hair style most men make use of a variety of hair products including combs, pomades, gels and more.

As a result, we see that the male cosmetics market is growing with high percentage. In fact the male grooming sector is growing faster than any other beauty sector. And as per the trend, men are becoming more comfortable with the usage of such male grooming products in order to improve their appearance. And men donâ€™t are spending hefty amount on personal hygiene products, skin care products and beauty products. And they are getting lots of confidence by wearing makeup products and personal care products.

And as we said, the market has seen the trend of getting high with every passing year, with every men spending maximum time on personal grooming. And with time, men have moved from basic skincare to particular eye care, wrinkle care and also lip care. And men are very happy to find out that they too have something which could enhance their appearance.
