Unicorn Engineers was established two decades ago by Engineers to promote concept of 100% sealing of rotary shaft through Mechanical Seals. Unicorn Engineers have got reputation of solving critical problems of Mechanical Seals & providing best quality goods at reasonable price with fast delivery. We manufacture Mechanical Seals as per International Standards like API 610, DIN 24960 & ISO-3069. We have Computer Aided Design facility for designing & developing new Mechanical Seals in the interest of our valued customers. We always try to offer simple, compact & sturdy designs to have ease in installation & maintenance

We Manufacture Mechanical Seals as per our designs as well as equivalent to reputed international brands like John Crane, Sealol, Durametallic, Burgmann, Flexibox, Borgwarner, Pillar, Eagle, Flowserve, Roten etc. We at Unicorn Engineers have lot of experience in reconditioning of Old and highly used Mechanical Seals. Our reconditioned Seals offer same life as new one as we prepare fresh surface of faces and replace worn out components. Reconditioning of Mechanical Seals not only saves huge money but also reduce production time hence improves deliveries.

Our Mechanical Seals find lot of Applications in Chemical, Pharmaceutical, Petrochemical, Power, Pulp & Paper Steel, Water & Sewage, Breweries, Sugar, Textiles, Food & Beverage, Shipping, Avionics, Air Conditioning industries.

Single Spring Mechanical Seals :

These Mechanical Seals are having single spring design to take care contaminated liquids. Due to open coil spring, it is used for non-clogging and self-cleaning operations.

With sturdy and heavy long spring, it can take care of mis-alignment, vibrations, thermal expansions & axial play of shaft. These Seals can be offered in Un-balance as well as Balance design to take care variety of applications. These Mechanical Seals are economical and easy to install and maintain because of lesser components.

Single Spring Mechanical Seals can be made for Uni or Bi-direction motion of shaft. We have great variety in this design to suit any applications.
