Article published on March 27th 2012 | Business

â€•NJ CIS.â€• Say it fast enough, and it sounds like â€•NCISâ€• of ABC television fame. It strikes us that way, thereâ€™s a hefty amount of paperwork involved.

NJ â€œCISâ€• refers to the NJ â€œCase Information Statement,â€• a mandatory form for all family law ac involving support, alimony, or equitable distribution, even if the divorce is uncontested. The CIS must also be updated and resubmitted, as appropriate. It is a document sworn to under penalties of perjury.

CIS NJ is similar to court forms adopted in other states to try to streamline information submitted by both parties and to make it easier for the court to quickly glean key information.

Because CIS NJ is a mandatory form, it is perfect for software automation by the programmers at Easy Soft. With our legal software, you fill in the core information only once, and then let our legal software automatically populate all duplicate fields, calculate details like ages and duration of marriage, and prompt you to complete missing information.

The â€œCase Information Statementâ€• also requires budget information that reflects the standard of livin established during the marriage and any differences that may be reflected in the current lifestyle. When you use Easy Softâ€™s CIS NJ, you can be assured that all fields are present from the form published by the court. When you complete the Easy Soft NJ CIS budget, it is complete.

Likewise, Easy Softâ€™s law office software for the â€œCase Information Systemâ€• is designed to ask y list all of the assets and liabilities of the marriage, whether subject to distribution or not. By using our legal software, you quickly see which fields are blank and how much work remains to be done.

In many ways, CIS NJ is like the New York Statement of Net Worth, a form with income information that is also used to calculate child support for NY. And, in every state, submission of mandatory information like personal profile, income, assets, and liabilities is crucial for the divorce settlement. When you use automated legal software to compile important financial information, from New Jersey to Arizona, you improve the quantity and the quality of data that you submit to the court, and that can translate into real dollars and cents for your client.

Downloads of sample NJ CIS and all other Easy Soft legal software are free.

NCIS bobblehead Abby doll, not included.
