Preventive health care and habits go a long way in keeping you away from infections and diseases. Using hand dryers in wash rooms has become a necessity. There are many hand dryers in the market and then there are superior and special hand dryers too. We bring you the most superior and advanced technology based Dyson airblade powered hand dryer designed to protect your hands at all times. Dyson airblade technology is superior to all other technologies being used in hand dryers available in the market today.

Demand for hand dryers is very high at hospitals, offices, organizations, commercial establishments as well as places of public traffic including airport, railways stations, and other transport terminals. When thousands of people use washrooms, they have but few seconds to dry their hands. Besides with such high traffic in the washrooms, it is but normal that the place is home to bacteria. There is a need for a sophisticated hand dryer in every establishment which can fight bacteria and dry hands within a few minutes. Dyson airbladeâ€™s superior technology provides the fastest drying performance as well as purifies the air before blowing it into the hands. Dyson airblade hand dryer effectively neutralizes bacteria up to 99.9%.

More than three years of research and effort of Dyson engineers has gone into bringing this superior product to you. Dyson airblade hand dryer is designed using digital motor and digital technology to give the users a comfortable and warm feeling and experience that leaves them feeling fresh and soft. Gentle stream of warm air is streamed through two apparatus thus creating an air sheet and wave gently drying your hands within ten seconds.

Dyson airblade hand dryer provides very good return on investment too. It is not only the fastest hand dryer but uses 80% less energy compared to the conventional models. On standby mode, the hand dryer uses only 1 watt per hour. If you consider the energy and water as well as paper savings that accrue to you in the long run, you will but agree that investing on Dyson Airblade hand dryer is the best decision.
