Over-Cladders Anonymous â€“ Cladding, cladding, cladding by

Article published on July 24th 2012 | Business

For those out there looking for the next level in contemporary design, looking for a statement thatâ€™s bold yet unobtrusive - for practical or purely aesthetic reasons, Cladding may be the way to go.

Iâ€™ll admit, as far as remodelling is concerned, stone cladding perhaps isnâ€™t the first design solution t come to mind, but if you keep an open mind, you might find that after a while youâ€™re scouring the streets at night, actively seeking out new and exciting things to clad... cladding addiction is a serious suburban phenomenon.

Based in Durban DuraStone is a top quality concrete Stone Cladding product designed to simulate natural stone. The rock and stone cladding tiles average from 20mm to 50mm in thickness and weigh on average 40kg per square meter, made from light weight concrete they offer a perfect solution to those remodelling projects in need of some direction. Whether itâ€™s stone cladding for a fireplace, chimney, the garden wall, or the complete building, DuraStone provides the answer.

DuraStone cladding tiles are perfect for both interior and exterior wall cladding. These cladding tiles have a long list of advantages: theyâ€™re easy to install, they perfectly simulate the look and beauty of natural stone, are durable, almost entirely maintenance free, cost effective and can also add value to your property.

With cladding of various different styles and designs there are a number of different options for you to take. Whether youâ€™re after that rustic stone look, the more weathered look of some cobbled stone constructions or the simplicity of the marble textured limestone hailing from the hills of Kentucky, here is a great opportunity to showcase your design talents and create a stone feature wall in your home no matter what your style, budget or requirements.

So get in contact for a cladding quotation and a free installation guide today!
