# Places to Visit in the Blue Mountains by Julia Roger

Article published on January 18th 2012 | Business

The Blue Mountains in Sydney is a very famous place for people to visit. Each year many tourists visiting Sydney also visit these mountains. You may wonder as to why be the name of these mountains is given Blue Mountains. These mountains are called so because of the Eucalyptus fume that tints the air. Blue Mountains are an essential part of Australia hence missing them will actually be a miss of heaven. There are many places to see in these mountains; hence proper Blue Mountains tours can be arranged that can make all your senses heighten. The places that one can visit on Blue Mountains tours are:

1. Three Sisters

2. Grand Canyon

3. Everglades

4. Selwood Science and Puzzles

5. Jenolan Caves

6. Scenic railway

7. Norman Lindsay gallery and Museum

8. The National Park

These places are attractive and it will offer you something more to venture, rather than only mountains. You can also choose a lot of fun sports in any of these places.  The National Park located in these mountains has a wide species of animals and birds to see. The natural beauties three sisters are really a gorgeous sight to look at. There are stories behind the views of three sisters; this will increase your knowledge and interest about this place more and more. Grand Canyon is a very common place too and as we know it, it is beautiful to see, walk or climb. The various other places mentioned in this list are unique in its own way, and the best part is you or any of your family members will not feel bored at all while venturing any of the places, or the entire Blue Mountains. It is a trip that is worth visiting, and once in your life make to this place, see the world and experience its beauty.
