Pop up Display Stands by James Blee

Article published on June 17th 2012 | Business

Express Displays is a Midlands-based manufacturer of pop up displays, exhibition stands and portable displays. Our pop up displays, and indeed the other promotional displays that we offer, are of superlative quality, and are similarly affordable. We have a loyal and diverse customer-base from both the UK and overseas who understand that our products are of the highest calibre.

All of the pop up display stands that we manufacture are all purpose-built in our factory. Each of these pop up displays stands, and indeed our entire product range, are delivered directly to our customers in a timely manner. These pop up display stands are designed and finished using the highest quality materials, and with affordable prices are sure to appeal to everyone.

Our 3x3 pop up display stands provide dynamic solutions for all of your brand awareness and promotional marketing requirements. They are traditionally adorned on trade show display walls. However, customers that have purchased these pop up display stands have chosen to dress library and museum environments to display information and general events. These pop up display stands have two separate styles and with prices that start at just four hundred and ninety nine pounds and ninety nine pence will surely provide you with a clear return on your investment almost immediately.

Should you like to find out any more information about these pop up display stands, or indeed any of the other products that we can offer, you need only come and pay us a visit online at: www.expressdisplays.co.uk.
