Article published on March 30th 2012 | Business

This analysts have conducted a survey on the PDM market in India. The survey was conducted among the senior business and technical leaders to understand the opportunities and challenges for the adoption of PDM software in India.

The survey aimed to identify the major issues faced by organizations with the present PDM software vendors. Further, the survey sought to establish an understanding about the benefits offered by current PDM software that help PDM vendors to overcome the persisting challenges. In addition, the survey compared global enterprise application vendors and global engineering application vendors. The survey also provides an insight into what an organization expects and prefers from PDM vendors. http://www.bharatbook.com/market-research-reports/information-technology-market-research-report/product-data-management-software-market-in-india-survey-report.html
