The leopard printed couture is always sexy and special and animal print gowns never go out of style. After I have shared some royal long blue prom gowns in almost every shade of blue, shining gold prom gowns and gothic style clothes with you, this time I will share some wonderful styles in animal print with you. Whether in cocktail-length or full-length, the prom gowns with animal print can be the same stunning and fantastic.

Donâ€™t listen to those naysayers who deny the animal printed clothes. Animal printed clothes have nothing to do the protection of the animals. You donâ€™t have to worry about that the animal dresses will break the laws. As I have mentioned above, the animal printed gowns will be in fashion trend forever. There may be a lull, but pretty soon. There are three main prints in womenâ€™s favorite styles, the leopard, cheetah and zebra print gowns. Among them, the leopard and cheetah printed gowns are classic, stylish and sexy. The zebra prints look amazing on those who are more daring. To be frankly, most women tend to choose the leopard printed prom dresses to attend in their splendid prom nights or red carpets.

The zebra printed prom dresses are special for some women who want to show off their fashion confidence. But it is also truly that not every woman can hold the wild zebra printed prom gowns in the big and important events, for they even donâ€™t have a clear idea whether if the zebra printed prom gowns are really fit for the occasions. if you donâ€™t want to go full out with giraffe printed gowns, you can still have animal print accessories like the animal bracelets and handbags. Yes, handbags in animal prints are also adored by many fashionable women who appear in the red carpets or some hot evening dinner party. This lens is about animal print clothes, so what I do is to make you have a good knowledge of the animal printed gowns and animal printed accessories.

I have mentioned above that whether it is in short or long, the animal printed gowns can be stunning. What is the difference between leopard and cheetah spots? Ok, I will show you in some easy words. For example, the cheetah spots are typically much simpler than leopard spots. A real cheetah print will consist of simple black and solid spot. And what is the most important thing is that the leopard spots on the other hand usually are cluster of black spots with some brown regions. And the leopard prints tend to look more like complicated rosettes than just dots, which is the best way to judge the leopard prints from the cheetah prints.

After you have known these, you will be clear in the animal print prom dresses when you are making such selections.
