We are Specialist in the establishment of Reinforced Concrete Cooling Towers. We Do RCC Cooling Towers Design and Construction for both in Cross Flow RCC Cooling Towers and Counter Flow RCC Cooling Towers, With Long life Compare to FRP and Timber Cooling Towers. RCC Towers made of Concrete cell. All Internal Parts are As per Other Cooling Towers.

The Performance of Cooling Tower is Pre Determined and Over Designed based on Long Life Approach. Also Our style of construction is Completely User Friendly and Attractive suitable for huge water flow application plants like

1. RCC Cooling Towers for power plants,
2. RCC Cooling Towers for sugar plants,
3. RCC Cooling Towers for Cement plants,
4. RCC Cooling Towers for Boilers and water treatment plants etc.,

We manufacture high quality Induced draft Cooling Tower in RCC Construction also both in Cross Flow and Counter Flow design that require easy maintenance and low recycle cost. As a result our industrial RCC cooling tower is highly demanded by a number of companies. With our hard work we have been able to enlist ourselves among the leading RCC cooling tower manufacturers and exporters in India.

Since the structure of Cooling Tower is complete with RCC, the tower life will be more than timber as well as FRP.

Available in two designs:

1. Cross Flow design
2. Counter Flow design

Capacity of RCC Cooling Tower :

The ranges of our RCC Cooling towers are 500 m³/hr to 3000 m³/hr per Cell

Applications :

1. Power Plants
2. Sugar Plants
3. Chemicals Plants

RCC Cooling Tower is known for their superior quality and available in both counter flow & cross flow design cooling towers with (RCC / wooden) structure for large scale cooling tower applications.

RCC Cooling Towers manufacturer in India offer Design Construction Operation Restructure Repair

maintenance of RCC Cooling Towers for all plants RCC Cooling Tower India RCC Cooling Tower Manufacturer India Operation Design Constuction RCC Tower.

We manufacture all types of industrial Timber Cooling Tower, FRP Cooling Tower, Dry Cooling Tower, Natural Draft Cooling Tower, RCC and Closed Circuit Cooling Towers in India.

Our product ranges are Bottle Shape FRP Cooling Tower, Square Shape FRP Cooling Tower, Seamless FRP Cooling Tower, Cross Flow, Counter Flow, Induced Draft, mechanical, Atmospheric, Timber Cooling Tower, Wooden Induced Draft Cross Flow, Radiator Coil Type, Dry Cooling Tower, Natural Draft Cooling Tower, RCC - Reinforced Concrete Cooling Tower closed circuit and open circuit.

All Types of Cooling Tower Spares, chemicals and Heat Exchangers
