Shakopee Community

Located on the banks of the Minnesota River, Shakopee has strong ties to pre-colonial times. Native Americans called this area home for hundreds of years, and the name of the town is derived from Chief Shakopee of the Dakota, who once ran a trading village along the river. Times have changed, but Shakopee has made strong steps to protect its past while ensuring its future. Residents can feel right at home walking through Shakopee's historic downtown district, whose streets are lined with restaurants and eclectic shops.

Shakopee protects its future by investing strongly in its public education system. The area has some of Minnesota's best public schools, including brand new Jackson Elementary. The town's excellent school system is one of the reasons Shakopee MN homes for sale are so popular with buyers.

Shakopee Area Attractions

Shakopee is known throughout Minnesota for its quality attractions. Chief among them is the Valleyfair Amusement Park, which boasts high thrill rides, including several large roller coasters. This park is so popular that it even draws crowds from out of state and is definitely worth your time to visit. Families with children of all ages can spend all day at Valleyfair, especially during the hot summer when the Soak City water park is operating.

If going to amusement parks is not your thing, Shakopee is also home to the highly popular Canterbury Park. This horse racing facility operates from late spring until early fall, drawing onlookers from all over the state. Residents especially come out to see the popular Claiming Crown race in August.

Finally, for a full picture of life in Shakopee, residents should visit the Shakopee Historic District. Located along the Minnesota River, this area gives a snapshot of early life in Shakopee. However, perhaps the most significant structures are the gigantic prehistoric burial mounds built by early Native American cultures. Some claim these mounds date back 2,000 years.
