Social Study Homework Help by Johnshawo

Article published on August 3rd 2012 | Business

Social studies are considered as integrated studies of humanities for encouraging the civic contest. American social council has defined Social study. Chiefly, it refers to the name of course, which generally emphasize on the local family and community. Social study varies among various countries. It is not a synonymous of sociology and social science. Thus, it can be stated that social study is an incorporated study of human beings and their civic activities.

The chief objective of social study is to encourage the civic competition. It needs skills, attitudes of the people and knowledge. It can also be cited that social study makes a person competent various decisions in his/her practical life as well. Thus, it is apparent that theoretical as well as practical knowledge is provided by studying social study. This subject has its significance for the students who are fully devoted to the ideas and values of their democratic republic. Students must be competent to utilize knowledge and information about their community, nation and world. Problem solving, data collection for evaluation, decision making process and collaboration all factors are decisive in the case of social study.
