Summer Clothing Ideas for Children by Lucy Smith

Article published on January 27th 2012 | Business

For the summer, you want your childrenâ€™s clothing to be comfortable and stylish. One way of doing this is getting the essential items for your children ahead of time, so when summer comes, theyâ€™ll have the clothing they need. If youâ€™re unsure about the current trends in childrenâ€™s clothing, read some childrenâ€™s fashion magazines in print and online. Talk to your friends and ask them what summer clothes would be the best for your children. You can also ask your children what types of summer clothing theyâ€™re interested in.

For boys, you have plenty of options regarding summer clothing. Cargo pants or shorts are excellent because theyâ€™re made of durable material, and they last for many summers. You can also get these items in colours such as khaki, dark green, tan or black. Cargo pants or shorts are especially nice for boys who are involved in sports or other fun outdoor activities during the summer. Cotton T-shirts are another must-have for boys in the summer, especially plain white T-shits. Plain white cotton T-shirts are good for boys to sleep in and they work well for sweat absorption during the day.

You can also get cotton T-shirts with comic heroes, cars or funny slogans on them for boys. Sandals and swimming trunks are essentials for the summer, and itâ€™s a good idea to get a few pairs each of denim jeans and linen pants for boys. Plaid linen shirts are good items to pair with the linen pants, and also purchase two pairs of dress shoes to go with the linen pants.

For girlsâ€™ summer clothing, sundresses and straw hats are excellent items because of the comfort and the elegance it gives your daughter. A few pairs of rhinestone-embedded denim jeans or shorts are essential, and for special occasions a few pairs of strappy sandals are necessary. For everyday wear, get some colourful tank tops and khaki or white Capri shorts for the girls.

Ruffled or bubble skirts give your daughter a dainty look. Also get some flip-flops, one-piece bathing suits and Crocs shoes for the girls. T-shirts with cute but age-appropriate slogans are currently popular summer items for girls. Good colours to choose for girlsâ€™ summer clothing include pastel colours, white, beige, green or purple. If your daughter will do a lot of swimming this summer, get some water shoes for the protection of her feet.
