Teqchrom Offers Web Printing Support Cost Effectively by TeqChrom IT Service

Article published on July 18th 2012 | Business

Teqchrom offers cost effective preprint support services to printing companies across globe. The parent company, Krish India Design(www.krishnadasan.com) has a longstanding experience in providing advanced prepress and IT support services to printing companies mainly from UK and US. The experienced prepress professional horded at Teqchrom can support the entire gamut of pre-printing processes from prepress printing support, order management, estimation, and print graphic support to custom print management services.

The company has developed a custom server based application that can ease print-quotes, print estimation, imaging, and web to print suitable of both commercial and non-commercial printing entities. Essentially a web design and graphic creation company, Krish India Design has gone long way in finding niche solutions for printing industry, which eases their workflow by reducing administrative overhead and time to considerable extent. Prepress support staff at Teqchrom gives flawless work support to client in meeting their targets in a flashy manner. Apart from pre-printing support the company focuses on virtually all sides of printing industry that directly or indirectly has a visible impact on running the business.

The online printing scene is bracing for tough war with the emergence of new technologies. So for printing companies it is essential to equip and get hold of these new trends to treat their customer to maximum satisfaction and stay in the race. At this place, the relevancies of companies like Teqchrom remains.

Printing companies feel getting right technical support for operating in a turnaround manner is not so easy. People with right skills include those who are experienced, have ability to handle preprint activities, emergency rise over capabilities with strong process background is a prerequisite for smooth operation. For a small or medium sized printing company, this is going to be a less profitable affairs, With the help of prepress companies like Teqchrom, they can earn profit apart from curtailing operational cost. The company offers lucrative preprint support service for printing entities par with industry standards.
