Things to Know About Custom Printed Labels by Robert Wilk

Article published on November 28th 2011 | Business

Labels are materials affixed to a product for identification purposes. They are generally printed on various types of materials such as cloth, paper, polymer, metal, etc. Product labels not only serve the purpose of identifying an article, but they also indicate contents, specifications, warnings, instructions, price and other information related to the products. There are various types of labels that can be used on practically all types of items and surfaces. You can order labels online from a reputed custom printed labels manufacturer, either on a sheet, a roll or separately, depending upon how and where you will be using the labels.

Important Uses of Custom Printed Labels:

â€¢ Product Labeling: Product labels are designed to give permanent identification to products. These labels have the ability to bond securely to the surface till the intended life span of the product or till many years of use. There are the removable varieties that hold on to the surface of an item until they need to be removed. For example labels on washing machines that has installation instructions printed on it, has to be removed after installing the machine.

â€¢ Textile labeling: mainly serves the purpose of branding. Textile labels are of different classification such as plastic, leather, woven or embroidered.

â€¢ Mailing Labels: are used for courier purposes to identify the sender and addressee and may also include routing barcodes and other specifications.

â€¢ Asset Labeling: are used to identify assets for operational and maintenance purposes.

â€¢ Package labeling: are those that contain barcodes, advertising, addresses, pricing, usage guidance, recipes, UPC identification, etc. Package labels can also be used to indicate pilferage or tampering.

Benefits of Custom Printed Labels:

â€¢ Can be used for marketing purposes.

â€¢ Available in plenty of concepts, design, shapes, size, colors and content.

â€¢ Helps you gain immediate attention of customers.
