Time to Grab the Commercial Properties in Gurgaon by Webinfiniteit

Article published on August 4th 2012 | Business

Commercial properties in Gurgaon have become a hot piece of cake lately. As the corporate sector is experiencing a higher graph each day, the commercial properties have seen a boom of a lifetime. The trumpet of hike is more prominently heard in the National Capital Region as Delhi is the commercial hub of the nation.

There is a vast amount of land available in Gurgaon and a decent amount of ready-to-avail properties in Delhi which are being sold like for free. The buyers are not just the individuals but the construction companies and builders too. While builders are making a huge profit after building commercial properties in Gurgaon and selling the space for much more than what is incurred in construction, the individuals see it as a wise investment.

Voluminous properties are available here that can meet up the demand of any type of customers. Wholesale businesses, retail outlets, office spaces, hotels, restaurants, commercial buildings and a number of other service establishmentsâ€” whatever is your need, you would not find it better anywhere but the commercial properties in Delhi.

The commercial joints of DLF, Palam Vihar, Ansalsâ€™ Sushant Lok, Unitech's South City, several HUDA sectors, and Ambience Island are the hot spots of commercial essence. Some of the ace commercial sites of Gurgaon are:

Global Business Park 22, DLF Square

BPTP Park Centra

Unitech Cyber Park

Unitech Business Park

Unitech Trade Center

Parsvnath Arcadia 43, DLF Plaza

Bestech Chambers

Ansal Sewa Time Square

Suncity Business Tower

Paras DownTown

Sewa Corporate Suites, Signature Tower

Centrum Plaza

The Masterpiece

Vipul Tech Square

DLF Center Court

Universal Trade Tower

Silverton Tower

Millenium Plaza

Delhi is also not left behind but just suffers from the lack of abundant space. Commercial properties can be found in Okhla Industrial Estate, Lajpat Nagar, Jasola, Nehru Place, Uttam Nagar for basic office spaces and retail markets. Builders like DLF are also running several commercial projects in Delhi which will be up very soon.

All these commercial properties in Gurgaon offer a compact range of specialized facilities for the appropriate professions. The surroundings are also quite ambient for corporate business, trades and ventures in most of the places. But with this greatly rising demand, it has become difficult to capture your desired place as properties are getting occupied very fast. But the new projects light up the hope for those who find the right property for themselves a little later.
