Use Garbage Disposal Calgary for a Clean Environment by [Jcal Gary](#)

Article published on February 16th 2012 | [Business](#)

Waste management in most countries is done effectively. Nevertheless, there is scope for improvement and for this the citizens have to realize their duties and contribute for the smooth functioning of such services. In Calgary, waste removal Calgary does a commendable job in collecting garbage from more than 300,000 homes from black carts which are moved into trucks with automatic arms.

### Garbage Collection in Calgary

Garbage pick-up Calgary is done with black carts provided for each household. It is a systematic and orderly form of collection. Your garbage has to be prepared and placed in the black carts by 7 a.m. and removed by 7 p.m. Blue carts are used for recyclable items. Take care in placing the carts with the wheels against the curb so that emptying the carts into the trucks can be done easily. Additionally, the arrows on the cart lid should point to the front lane. Both the carts should be placed with enough space between them.

Black carts belong to "The City of Calgary"™ and they are distributed to residents by the government through garbage removal Calgary. If you are shifting your residence you need to return the black cart and call the waste services for replacements for your new home. The City of Calgary has planned a pilot program of collecting food waste in green carts by March 2012 in a few communities. Your garbage pick-up service will collect the green carts for valuable compost.

There are private garbage collection companies in Calgary who also do a wonderful job of collection and disposal for a reasonable price. Bin rental Calgary charges vary according to the area in Calgary and the cost of garbage disposal.

### Garbage Disposal in Calgary

Household hazardous waste is disposed off with care and effort by the waste disposal Calgary authorities. But you have to be responsible enough to separate them from other garbage. Hazardous waste has to be carefully sealed and tagged as it is not safe to dispose it normally. Residents have to take the hazardous waste to the Calgary landfills where it will be accepted at the designated depots.

Garbage disposal Calgary will take measures to safely treat the household chemicals and then dispose them. Items such as motor oil, vehicle batteries, paint or paint containers are bought by private firms for recycling.
