Summer is coming .Would like to know the trend for summer prom dresses 2012? This article will take the world famous brand Versace as example in order to make an analysis on the trend 2012.

For various teenagers who are in favor of fashion, they may be quite familiar with Versace , one of the most celebrated luxury brand in the world. The medusa inspired logo stands for irresistible glamour and breath taking beauty .Actually ,the talented designer who makes the most of their rich imagination, scheming out those works which feature not only strong Renaissance touch but also gorgeous appearances, has never failed to conquer the world and lead the trend. Now the well known brand has just release a fashion show on prom dresses 2012. Maybe the price of Versace is formidable ,but at least ,you can catch a glimpse of what is popular in 2012 from the international current leader. Now here we go.

Color

According to the report of various fashion magazines, there are eight colors in vogue for the prom dresses 2012, namely blue, white and so on. So the artworks of Versace are no exception. The 2012 Versace Prom Dresses succeed the formal vintage and elegant style. The designer prefer to use those fresh and clean colors. Take a panoramic view of the show 2012, you will find white, sky blue and light purple occupy most of the dresses .The sentimental color matching ,bring you a cool sense in summer, diverting you on the seashore of Mediterranean.

Length

Most of Versace prom dresses 2012 are in short length. Maybe you will be quite surprised with the idea. But you know, the design concept this season pay more attention to the comfort of wearers. Furthermore, the designer would also want to stress the wise ,salty and sophisticated character of new urban female, so the short design would help those office ladies look more energetic in different occasions.

Neckline

Just like other brands ,you will find the neckline of Versace prom dresses 2012 ranges from the cute sweetheart design to the sexy deep-v-neck, from the charming halter style to the traditional bateau. It seems that the chief designer hold a specific passion on the bateau style. The cautious idea features strong vintage touch ,which will be beneficial to show the intellectuality of girls.

Waistline

Prior to this topic, I have already said that the primary products of Versace this season are short dresses. In order to show the perfect curves of girls, the artist ponder the design of waistline deliberately . Most prom dresses are in empire waist so as to elongate the your silhouette. Moreover, some prom dresses are just bra-like at the upper part, this will help to attract othersâ€™ attention on the slim waist of the wearers.

Fabric

Generally, the most popular fabric for prom dresses are chiffon, printed clothes and silk. But in Versaceâ€™s world, there is nothing impossible. The new invented neoprene prom dresses collections

feature a glossiest look which will ensure you become the star of the party.

Accessories

Metallic tone is one trend for 2012. So Versace take this idea into full play. Gold rivets, gold rivets, gold rivets. After you see the show, the most impressive thing may be gold rivets. Those fantastic embellishments own luxury luster. No matter the neckline or belt, the sleeves or the front, you will find dazzling rivets sparking . The ingenious design will remind you of the mysterious Roman empire.

All in all, if you want to learn the essence of Versace , pay attention to the colors, the short length ,the waistline and the innovative fabric as well as the luxury accessories.
