Zadroga claim helps to provide medical and financial support to victims by [Jennifer Weinstein](#)

Article published on December 19th 2011 | [Business](#)

The Zadroga Claim is linked with the terrorist attack at the World Trade Attack Centre on September 9th, 2001. Thus, it is filled by those groups of people who have suffered bodily and emotional health setbacks during the World Trade Centre Attack.

The Zadroga Claim would help the sufferers get monetary benefits on getting infected with high amount of respiratory disorder and serious health condition such as Upper or Lower Airway Disease, Acid Reflux Disease, occupational asthma, Sarcoidosis, Asbestosis, Mesothelioma Cancer.

One of the greatest features of the Zadroga Claim is that if any victim is getting settlement from any insurance company; still, the person is eligible to file for Zadroga Claim from the court of law.

The people who are eligible to get the Zadroga Claim include police personnel, fire fighting forces, volunteers, original survivors and down town residents who were infected with severe respiratory diseases and serious cancer. Thus, the compensation would help such sufferers to sustain themselves mentally and financially.

The government of United States does not only provides assistance to the victims but also provides support to the family members of the victims. Therefore, the sufferers can present their legal proof about the loss they suffered during the attack and can get the compensated amount to sustain their life.

The Zadroga Act got its name from a brave police officer of United States called James Zadroga. He was among the main people who was involved in ground clearance and had spent more than 450 hours in saving the life of many victims at the World Trade attack. While spending more than 450 hours at the cleanup process, he was developed with a serious respiratory problem called Mesothelioma.

Mesothelioma is a form of cancer which affects the chest, abdominal cavity and area around the heart. The people affected by these are those who have closely worked on jobs where they have inhaled Asbestos. Asbestos is found in building material, construction site, etc.

In January 2011, the government of United States issued the Zadroga Law under which all the volunteers, police personnel, fire workers, etc. who helped in the rescue operation at the World Trade Centre Attack are eligible to file for the Zadroga Claim.

The 9/11 Health and Compensation fund provides some amount of financial relief to the individuals who had faced severe medical problems during the WTC attack. An efficient Zadroga Lawyer should go through the complete situation of the case and should then take actions accordingly.

The victim should appoint a Zadroga Lawyer who works on the principle of "no win no fee" means that the clients would be charged only if he wins the case and the lawyer would not ask for the fee if he loses the case. This clearly shows that the Zadroga Lawyers are very generous and are not money minded.

According to The Workers Compensation Fund, the employers during the attack in New York are required to pay a reasonable amount of compensation to their employees for the injuries they had to suffer due to the attack. With the help of Zadroga Claim the employees can file for everlasting

disability benefits.

The Zadroga Claim provides financial aid to the victim which helps them to fight the health problem that they are suffering from due to the devastating terrorist attack.
