Be Artistic Become Interior Designer in Your Job by Manishpaull

Article published on May 23rd 2012 | Career

Interior designing is a field in which a person should be excels in the creative thoughts and can generate new innovative ideas about the decorations and utilizations of the designing items. The interior designers are being hired by many architecture companies. They have to draft and design various architectural designs. This includes altering drawings, providing project administrative support and producing finishes boards for the companyâ€™s previous designs.

Interior design course is a job based on client servicing. Thus an interior designer should be well acquainted with the clientâ€™s expectations and can able to work under their guidance and requirements. The person should also be good in verbal and nonverbal communication skills with full of confidence while dealing with their clients. They should understand each requirement of clients with small observations for examples what are the items to be use in kitchen fittings at some office etc.

The student who want to pursue the interior designing course after 12th pass will learn the basic knowledge of interior architectural detailing skills, an understanding of drawings skills and procedures, working knowledge of the application of color, materials and artistic form, a familiarity with space planning methodology, urniture, case goods and systems, and basic sketching and rendering skills. AutoCAD/ADT technical skills are required by most of the companies.

Many institutes are taking the entrance exam of the students who wants to go for the interior designing courses at their graduation levels. They are taking your basic tests for design and drawing skills before allowing you for the admission in their institutes. The basic idea is that you can show your previous records of art and craft skills in the portfolio format. We can suggest you some of the recognized institutes in India which are offering interior designing courses at the graduation level.

The names of those regular colleges are mention below:-

1. Arch Institute of fashion and Design / Arch Gemology & Jewelry Institute, Jaipur Rajasthan.

2. CREATIONS - The School of Design and Technology, Pune

3. St. Francis Institute of Art and Design, Mumbai

4. Inifd Pune â€“ Koregoan Park

5. Apeejay Institute of Design, New Delhi

6. College of Arts and Design, Chennai

7. RachnaSansad, School of Interior design, Mumbai

8. College of Art & Design Madras

Theses all colleges are teaching the technical and non technical, each aspect of the interior designing course in depth. Students will gain good practical knowledge from any of those institutes. After completion of the courses some institutes are providing the internships and placements in the branded companies of India. The faculties of all theses institutes are highly qualified and well experienced in their individual field.

Then we can say if you have interest in these professional studies then the institutes are promising you for how to move smoothly and progressively in the same career for long run. After getting certain time of experience in your chosen field you can start your own business which starts from home. Here you have to design various new creations with your originality and fusion collections of interior designsâ€™ to your clients.
