Schools in Metropolis Helping out Education by Harry Yadav

Article published on June 4th 2012 | Career

In gigantic cities like the metropolis lifestyle is quite fast and instant paced. People in such cities are quite ambitious about everything. And the most favored reason to it is that there are opportunities in such cities but there is lot of competition. This competition brings in the need of more education focused people.

India is a developing country where education keeps a key importance. The government is taking many measures to help up education in the Indian society. In resent budget of 2012 the government has brought 25% reservation for below poverty line children to study in unaided institutions. Government has taken out 22% money for the Sarva Shiksha Abhiyan and 27% money for the Rajiv Gandhi Shiksha Abhiyan Yojna. In short we come to know that governments are taking measure to bring more education in India by taking such measures. Education is necessary for everyone, especially the children because they are the future of our country. Education is something which has no barriers in the sense that education doesnâ€™t have boundaries of age, sex, caste, or creed it is equal for everyone and it benefits all equally.

If you want to eradicate social evils from the society, if you want to reduce unemployment and poverty, if you want to reduce the people coming under below poverty line, if you will to increase literacy rate in India that means that you need to increase education in your country. The social awareness for education is very important so that the uneducated people know their loss and let their children study not work. It is even necessary that both the gender is send for education as I said previously that education is not gender biased it is for boys as well as for girls. There are no limits for education; people can study as much as they wish and as long as they wish. The key word is education is important rest no clause in it.

Traditionally we use to see that there used to be Gurukul where parents use to send their children where the children use to stay and study for certain age and then they were sending back home to do their respective work. Lot of phases went in education level in our country and then we came across this modern system of schooling where the children go for education. There are numbers of good schools especially in gigantic cities like the metropolis such as Delhi. There are schools in Ashoka Park which excels in education. There are boyâ€™s schools in Ashoka Park as well as girlâ€™s schools in Ashoka Park which are busy taking steps towards educating children and helping in Indiaâ€™s future, good future.
