The Pathfinder Biotechnology Institute in Delhi! by Nisha Ray

Article published on December 9th 2011 | Career

Biotechnology is a field of applied biology that involves the use of living organisms and bioprocesses on engineering, technology, medicine and other fields requiring bio-products. Biotechnology/Life sciences are amongst the leading and most significant applied sciences in todayâ€™s era. Biotechnology is one of the latest developed sciences and evolved on the basis of proteomics and genomics. It is a research oriented and firmemerging inter-disciplinary field. The Pathfinder academy provides you an opportunity to get involved with the latest developing sciences which is future promising too.

Founded back in the year 2003, Pathfinder academy was a result of the travail of great visionary Mr. Pranay Kumar, scholar from JNU, New Delhi and visiting faculty Dept. of Biotechnology, Jamia Millia Islamia, New Delhi. It was established with the goal of providing a priceless opportunity to those aspirants who want a distinguished and shining future in biotechnology/life sciences.

It was his ambition and toil that made Pathfinder Academy, a pioneer institute that is contributing the nation with coaching for biotechnology entrance examinations and CSIR-JRF-NET/GATE and help them seek admission in leading institutes for higher education with a strong established foundation. There is nothing that precludes us from being informed, modified, rendered, furnished and be up-to-date.

At Pathfinder academy, we believe in application of biotechnology for the benefit of agronomy, environment, engineering and veterinary and human medications. For this, we develop mutually advantageous relationships with industry and concerned establishments to conduct research and economy transmission. As a personal responsibility towards society, we try to initiate and runinformative educational programs to ensure the large scale propagation of academic innovations to all strata of society. Pathfinder academy also takes various steps in promoting the education and training of biologists, engineers, agricultural personnel and medical technologists in the fields of genomic research, economic development and educational accessibility which are the pillars of biotechnology. We encourage our brilliant faculty, staff and aspiring scholars to exploit the extensive research amenities, interacting with commercial enterprises and provide them with wide variety of training services like Academic projects, Industrial training and workshops, etc.

Biotechnology has proved to have incredible career prospects now and in future and Pathfinder welcomes you to interact and function in the most challenging and inviting discipline in sciences gaining both knowledge and career perspectives.
