Article published on January 16th 2012 | Career

In high school days if there had been an essay competition on â€˜your hobbiesâ€™ or â€˜what do you wa become once you grow up?â€™ the popular answers would be gardening, painting, music or doctor, engineer or manager. Not many would write of flying airplanes and helicopters or growing up to become a pilot. It requires a focused mind and brave heart to take up the passion of flying. Be it flying an airplane or a helicopter, it requires lot of patience and hard work to master the art of flying. When on flight one just cannot afford to have 99% success rate. It has to be 100% success rate all the time.

If you are one of those minorities who loves to fly and is eager to learn flying an airplane or a helicopter, then here is your chance of fulfilling your dream without disturbing your present routine. Southern California Helicopters brings you the rare opportunity to realize your dream even if you do not have any experience. It helps you to start from scratch and realize whatever your flying goal is. Whether it is to fly as an amateur just for the thrill or to become a professional, this Helicopter Flight School stands by you and extends all kinds of help to you.

Southern California Helicopters operates from two locations. One is located at the Chino Airport in Chino, California, just about 35 miles away from downtown Los Angeles. Chino Airport is an idyllic location for Helicopter Flight School. The second one Helicopter Training location is at the Mercury Sky Harbor FBO at the Long Beach Airport in Long Beach, California. This Flight Training institute creates tailor made training schedule, keeping in mind the prior commitments of the candidates.

Southern California Helicopters is a full service helicopter training institute. You need not have any prior experience and you can chose from a slew of course options offered by the institute. It includes Certified Flight Instructor, Commercial Pilot Helicopter, Passenger Pilot Helicopter etc. For licensed pilots there is the option of sharpening the skill.

For airplane and helicopter training, Southern California Helicopters maintains a well serviced fleet of airplanes like Socata, Cessana equipped airplanes and for helicopters the latest in Robinson, Schweizer etc. Thus Southern California Helicopters ensures that you gain and complete your training in the safest and highly modern as well as cost effective set up.

The highly qualified, experienced and trained league of flight instructors provide you with the most comprehensive and customised helicopter aviation training as well as practical skill to bring out the best in you. The in depth discussion of the principles as well as their invaluable tips goes into making you a competent and highly responsible pilot.

So, why wait. Go ahead. Enroll yourself with the Southern California Helicopters, be it at Chino Airport or at Long Beach Airport. Thus put yourself in safe hands and watch your flying career get wings and fly high. Now give your childhood dreams a wing. Learn to fly helicopter at your own convenience.
