Choosing a Tailor by Dylan Jones

Article published on June 1st 2012 | Clothing

Choosing a tailor is not a simple decision. Good tailors are not always easy to find and the average salesman does not have the necessary knowledge to give you the right advice. You have an advantage if youâ€™re shopping in London; the dress shirts Jermyn Street has to offer are often made-to-measure, custom shirts that fit you perfectly. The quality mens shirts London has available give you a headâ€™s start, but you should still have a quality tailor available when necessary.

Before you visit potential tailors, you should already be aware of the basics in menâ€™s style. Researching a bit before you head out to find a tailor will help you determine what kind of tailor you need and what details in menswear are important to you.

Clothing sends a message about who you are as a person. Most people that you come in contact with on a daily basis know you only by your appearance. Your clothing choices may often be the only information people have to go on to make a judgment about you. Obviously it is critical to ensure you are giving the intended message. The dress shirts Jermyn Street stores offer will make the impression that you care about your appearance and that you are a man who gives attention to detail.

Whether you choose single cuff shirts, slim fit shirts, or wild and flamboyant colours, your style says a great deal about you. Make certain you are sending out the right signals.

Once youâ€™ve learned a little about menâ€™s fashion, itâ€™s time to start interviewing tailors. Asking y friends for recommendations is one way to begin, but proceed with caution. Many men stay with a tailor simply out of familiarity and not because he provides top-quality work. Combined with the fact that most men donâ€™t understand the proper fit of a shirt, itâ€™s possible that a particular tailor receives recommendations simply because his patrons donâ€™t know any better.

There are certain strict standards when it comes to how your single cuff shirts or slim fit shirts should look on your body. Donâ€™t assume that because someone calls himself a tailor that he actually understands a proper fit. A skilled tailor will outfit you very differently than an ordinary, run-of-the-mill tailor. Ask to see samples and pictures, and ask any question you feel is pertinent. Good communication is important between a man and his tailor.

When shopping for mens shirts, London is the place to go. Donâ€™t forget to stop in at Emmett London, the premiere menâ€™s outfitter on Jermyn Street.
