Custom-tailored tuxedo- for that perfect fit!

For a man, there are different kinds of clothes that need to be maintained for different purposes and occasions. You need sports clothes for your jogging or gym sessions. There are informal clothes when you have a barbecue session and, of course, there are formal clothes for your work place. There are some formal occasions when only a formal tuxedo will do. You cannot anticipate these occasions. Itâ€™s, therefore, wise to keep a tuxedo handy at all times. Due to the formal nature of such occasions, your tuxedo has to be of the best fabric and fit you perfectly. Since you can never meet these criteria at stores, you have to turn to the bespoke or custom tailor for your tuxedo. There are several custom tailors but you need to find the right one who actually delivers what he promises. This is a special kind of tailor. He is a master craftsman with decades of experience in tailoring behind him. He considers the individuality of every customer and therefore gives the necessary importance to the manner the customerâ€™s

body is shaped. It is this craftsman that will give you a well-crafted tuxedo that will last you for years.

The custom tailor who will work on your black tuxedo combines exceptional standards of quality and service with the convenience of online booking. His team makes custom shirts and menâ€™s suits as well as slacks and jackets besides vests and of course tuxedos. The custom tailor has earned the rare distinction of being a fastidious kind of craftsman on account of his custom tailoring traditions that began in his family tailoring business 40 years ago in Hong Kong. Today this craftsmanship and personalized service are yours when you entrust the task of tailoring your tuxedo to him.

The master craftsman will not create your custom tuxedo from some existing patterns meant to represent common body types. Though some tailors adopt this practice the true bespoke tailor makes a new set of patterns for every customer. This set of patterns is based on how your shoulders droop and how you like your pockets. You can decide all the details of your tuxedo such as whether you want the notch lapel or the shawl collar, peak lapel, double breasted, full dress or the classic cutaway. Thereafter you can leave the entire process of creating the perfect tuxedo safely in the able hands of the master craftsman.
