Now television providers are offering service according to subscribers taste and preference. As competition is increasing day after day, most of the satellite and cable TV providers are providing a variety of exclusive and amazing services at reasonable prices. People just have to check which are the best service providers in their area and subscribe for that.

When compared to other satellite TV providers, Dish Network is catering its service to more than 15 million subscribers. Most of the Dish TV offers give you the option to pay only for what you watch. Letâ€™s check some of the exclusive services from the Dish Network.

HD channels in Dish Network â€“ If you own a HDTV, then you can enjoy HD with Dish Network free of cost. Dish is providing nearly 200 HD channels to its subscribers. Dish also has packages for those who like to watch 100% HD channels. The two packages that are providing purely HD channels are Dish America silver and Dish America gold. Through these packages Dish delivers a wide array of programs including movies, music, news, fashion etc.

Those who subscribe to Dish America silver can access more than 75 HD channels. This includes Animal planet, Speed HD, Golf Channels HD, Hallmark channel HD and other regular local channels. With Dish America gold, subscribers can access more than 85 HD channels. The channels that can be viewed by selecting this package include Hallmark Movie, Biography Channel, Planet Green, National Geographic and many more. Most of the regular local channels are also available with this package. To get all these services, you have to pay slightly higher rent than Dish America silver. Apart from these, the Dish also delivers two Spanish-language packages named Dish Latino Dos and Dish Latino Max to those who love Spanish language.

Local and International channels â€“ Dish TV is delivering a number of local channels and international channels to its subscribers. It ranges from sports channels, movie channels, news channels and kids channels. It also offer tailor made packages that meets the entertainment needs of your family.

Video-on demand and pay-per-view â€“ Dish-onâ€“demand allows you to watch a plethora of program and movies as and when you wish. You just have to select your favorite movie or program from the thousands of movie tiles and TV shows provided in the list of options. Another interesting option that is included in the Dish TV package is the pay-per-view entertainment. Pay-per-movie allows movie lovers to watch some of the latest blockbuster movies with enhanced picture and sound clarity within the comfort of the couch in the house. If you want to enjoy theatre print like picture quality and sound, then choose HD movies available on Dish network pay-per-view movies. Those who are interested in sports can opt for pay-per-view sports and events programming, and enjoy some of the exclusive sports events at the touch of a button. Dish networks also allow you to watch some of the exclusive theater performance, which you missed due to the busy life schedule.

Dish also stores something good for kids. Pay-per-view programming for kids include some 3D-movies, cartoons and kids programs. All these options are available at your finger tips from Dish TV Offers at an affordable cost.

DVR technology â€“ One of the latest features added to Dish TV package is the digital video recording technology. This feature allows you to pause, record and replay programs again and again. If you like to watch a reality program from its beginning for the second time, use DVR. With a dish TV connection with a DVR technology, you can now record shows and watch it as per your convenience.
