What Will be Punished in TERA - Plug Penalized Rules by Mr.lennon

Article published on June 13th 2012 | Communication

Recently, a lot of players use plug-in in TERA, and causing very serious consequences, so the game out of balance, and good use of plug-in players will be the official severely punished. TERA official carrier of some plug-in players how to deal with it? Below to let us know.

The war between TERA and plug

Recently, a lot of use of plug-in players to shoot video released to relevant sites on the publicity. However, the authenticity of Video has not been further confirmation. Seen the video of the players may also want to try to use the plug-in feeling. , TERA is using the plug to be severely punished, and not hesitate to punish.

The following is the official operating policies the Ordinance TERA:

The 24th refund of the operational regulations:

7. Use of the official prohibition of the use of plug-in users or illegal use of the identity card numbers and other acts of others, the user's account will be Feng Ting, and the official will not refund any fees.

Policy content of the operating section 6, the non-ethical behavior:

4. For the following players will be taken to terminate the service, please refer to the view.

Disruptive behavior to the overall game environment, as well as the game's overall balance has been destroyed, or the game server to cause chaos phenomena happen, collectively referred to using the plug-in players will be severely punished.

Even if not in line with the contents of the above regulations, the official will be based on the actual situation and dealt with accordingly.

Plug-in mode

The use of plug-ins need to check the game log contents in order to confirm, but some plug-in is very difficult to judge them. Repeatedly sustained hunting the upgrade, the system will automatically recognize this is a plug-in user.

At the same time, online games a player in the designated area repeatedly hunting upgrade, the system may automatically identify to the use of plug-ins. In order to avoid this embarrassing situation, we need to note the following content.

1. Avoid for a long time hunting activities in the same place.

Repeated the same action in the same area, the system automatically identified using the plug-in.

2. The same region to avoid repeat move.

If you back and forth between the village and hunting sites, the system automatically finds the plug.

3. The card machine or BUG best to relogin the game.

Part of the plug-in card machine phenomenon, makes the role of the very trajectory of the mobile.

4. If not a legitimate program, it is best to choose to click on the client to exit the game program.

Not a legitimate program, the system will automatically identified as a plug-in.

Most players use fastping program, the official use of this procedure, there is no related argument is given, but at least for now does not appear malicious results. So the official cautious.

Only one solution

Away from the plug-in, if you use plug-in user, please immediately inform the official operations. User online games using the plug there is definitely some players try to use the plug-in is in a curious state of mind. Last or to advise you best not to have the curiosity, or punished is not worth the candle.
