A Look at Draytek Vigor 2850 Router System by Mary Porter

Article published on June 23rd 2012 | Computer

Draytek vigor 2850 is a variant of 2830 series. However, Draytek 2850 has been enriched with some additional features. It has an additional VDSL interface for BT Infinityâ„¢ or other type of VDSL/VDSL2 services from different ISPs. Those users who are using ADSL based routers for a long time, upgrading it to VDSL at a later stage Draytek 2850 is the ideal option for them. In fact, it can be used with VDSL as the primary feed and ADSL as secondary feed. Moreover, the presence of alternative WAN ports can help in providing connectivity to the Ethernet. It can also provide connectivity using USB adaptor to 3G cellular services. The 2850 series include features like Gigabit Ethernet, VLAN tagging, and switchable dual-band Wi-Fi ('n' models).

Packed with lots of modern features, Vigor 2850 is truly an amazing achievement in the field of DSL connectivity &security. draytek vigor 2850 series is compatible with every single UK based ADSL variants including Annex M, ADSL2+, and VDSL. It can also be used for any leased line or cable modem applications through the help of Gigabit Ethernet WAN Port.

Gigabit switch features 4 high speed LAN ports. They can be used for easy connectivity through server or local computers. Data transfer through these ports take place at the highest rate. In fact, the fourth LAN port shows â€œ4/WANâ€•. This means it can operate as WAN interface in case of dual-WAN mode. Data transfer is highly secured through the inclusion of content filtering, and web application based controls. Also, a much stronger firewall system has been added for higher degree of protection.

There are 2 DSL interfaces present within draytek 2850 series: ADSL and VDSL. As a result, those who consider upgrading their ADSL connectivity to VDSL will really find it easier. The VDSL port can also be used alone. In fact, the router can also be connected through both the lines; this is applicable only for those who have both the services available.
