ã€€ã€€Chinese Checkers is among the most widely played online games and the thrill of this game is unparalleled.

ã€€ã€€This game has achieved wide acclaims from players all over the world. The instruction of playing Chinese checkers game is absolutely childâ€™s play and one can understand it just by going through them once. You have the option of either playing against the computer or playing against various players from different parts of the world. This game involves marbles and a board and the trick of this game lies in placing the marbles on the right position. The board has a check pattern with each small check sufficient to hold a marble in.

ã€€ã€€This game is meant for people of all ages and it is not just a mental booster but a great stress reliever. After an exhausting day, it certainly is one of the best means of entertainment. Parents who fear their children learning some violence from some online games must persuade their little ones towards this game. It is free from any violence and would help them to develop reasoning skills too.

ã€€ã€€You have the option to choose from colors like purple, green, light blue, dark blue, yellow and red. Now you are done with the selection procedure and itâ€™s time to commence the game. The computer will have a different color since it is your opponent in the game. Most players love to play against the computer and if you intend to do so you would have to first choose you players who would play on your behalf. You can select minimum two players and maximum six players. After selecting you players you would be instructed to select the colors for your players.

ã€€ã€€You would be supplied with the marbles and to begin you would have to place the marbles on the desired hole. This can be possible if you drag the pointer of the mouse towards the apex of the gap on the board. Once you reach the desired gap you must release the mouse and the marble will automatically occupy the desired position.

ã€€ã€€After playing your turn, the avatar will get a chance and you would have to patiently wait for your turn. It is important to be logical and not just keep placing the marbles anywhere you please. It is available mostly for free and this feature makes this Chinese checkers game even more desirable and exciting.
