Ice Cream Sandwich and Lenovo Technical Support by Dawa

Article published on March 13th 2012 | Computer

Lenovo ThinkPad Tablet is about to get the taste of the Ice Cream Sandwich. Well, if the rumors have their way then somewhere in May, 2012, Lenovo machine would don the Android 4.0 operating system. It will be delivered as an over-the-air update. The buzz reveals that the new update will glare up the modus operandi while raising the style quotient of the mobile professionals. They will be able to browse, surf and navigate confidently to the webpage of their choice in a faster way. Voice input and Face Unlock features are sure to woo those who are poised to break conventional barriers.

Robust Security Features such as Good for Enterprise, Cisco AnyConnect, and Computrace Mobile by Absolute Software will help them to access corporate network in a secure way. Internet fraudulent will have a tough time in breaching the system or network data as it houses full device and SD card encryption, lost device disablement, and anti-theft software. Low in gravity (1.65 lbs) and high in battery life (8 hours), it presents a solution that is sure to get the positive reviews from professionals. Support for WiFi, Bluetooth, and optional WWAN / mobile broadband connectivity and built-in SocialTouch app bring world that matters closer to heart.

Remote-based Lenovo Support is available on demand to simplify technology at every step. The portal renders the service in various categories, including Lenovo setup, Lenovo repair, Lenovo troubleshooting, software and driver installation, update and upgrade, printer setup and installation, networking, data backup and recovery, security settings, virus and spyware removal and more. As per convenience, one can go for chat support or phone support.

Experts can ask for the remote access of the system in question, in case, itâ€™s utterly required. Donâ€™ abide by any misconception regarding the remote support as it is done through a totally encrypted protocols and the access is one time valid. Once the session gets terminated from userâ€™s end no one can peak into the system. To resume the remote session, end-users donâ€™t need any additional software to be installed, they have to just click on the link offered by the remote helpdesk and it will be initiated without any hassles. Individual can see on the screen, as what is exactly happening with the Lenovo machine.

The services offered by Lenovo Technical Support portal is absolutely guided by Internet norms, however, users are advised to go through the â€˜terms and conditionsâ€™ and â€˜privacy informationâ€™ any post-sales conflicts. Third-party tech support providers portray better options for end-users. They are offering customized and reliable support at affordable prices.

Interested users can have a glimpse of their work culture while browsing through their online portals. Some are quite specific about model number of the product, and have subject-matter-experts to take care of related issues. 24/7 availability, instant resolution, suitable escalation matrix, service guarantee are key features that have benefitted all Lenovo consumers across the globe.

Besides, reliable knowledgebase, sections for drivers and software download, product review, security alerts, and other stuffs available at lenovo technical help are to make sure that users have a chance to get all at one place.
