Article published on June 27th 2012 | Computer

The Compaq Presario CQ60-615DX laptop equipped with Intel Celeron processor (single-core), 2GB of RAM, Intel graphics, a 250GB SATA hard drive, and a 15.6-inch roomy display may not get the vote of performance freaked guys, but the solid construction, comfortable & full-size keyboard, and the giveaway basement price of $349 will not disappoint people if they are looking for a machine to accomplish everyday computing needs.

Go through this Compaq reviews, and have an insight of the laptop. Integrated 10/100 Ethernet LAN and 802.11b/g/n WLAN are to facilitate smooth networking and streaming of the Internet access across any computer network. Anticipating the instances of laptop theft the brand has introduced considerable security measures like Kensington MicroSaver lock slot, Power-on password, and can also go in sync with 3rd party security lock devices. The system is preconfigured with genuine Windows 7 Home Premium 64-bit, Symantec Norton Internet Security 2010 60-day Trial, and Microsoft Office Starter 2010.

The starter program is available with reduced functionality versions of Microsoft Word and Excel, with advertising, and is devoid of PowerPoint and Outlook. HP PC Recovery, HP Advisor, Multimedia, Rhapsody Music Store, etc. are to pamper the buyers. Though, priced low, it doesnâ€™t compromise with some of the on-demand features like webcam and memory card reader. Integrated 3 x USB 2.0 ports, 1 x headphone-out, 1 x microphone-in, 1 x RJ-45 Ethernet port, 1 x VGA port can surprise you. And on the go computing is not a concern with the 6-cell lithium-ion battery, up to 5 h 30 min battery life.

The most important aspect of the laptop is the Compaq Support and warranty feature. It gives the desired hardware protection for the system for 1-year, and software support till the 30th day from the date of purchase for free. Installed HP Assistant program the automated diagnostic and troubleshooting tool is a reason to boast. Reading the peopleâ€™s mind, HP, the owner, has included the laptop into the Windows 8 Upgrade stream, but that will be done specifically on the terms and conditions of the Microsoft Upgrade Offer. As per a recent press release of Microsoft all Windows 7 PC purchased between June 2, 2012 and January 31, 2013 will be allowed to take the upgrade path with a payment of 14.99 US $.

Provoked by the Compaq popularity independent service providers have introduced the Compaq technical support chapter into their support program. Nowadays, users can avail quick and easy technical support for hardware and software at the comfort of their home. Leaving behind the hardware support that is provided on-site, the software protection is furnished by some remote software and is made available through the Internet. Experts can look into the system resources including Windows Event Viewer and Registry Settings, and can read and successfully interpret any error messages or notifications to effectively resolve problems. Increasing the tech support horizon, a few vendors also entertain peripherals like printers, scanners, webcams, etc. And the most important fact is that customers/clientsâ€™ Compaq system or peripherals are not constrained by the warranty status.
