Chicago is not an easy city to drive in and even if you are an expert driver you must have spent some moments gritting your teeth navigating through this highly populated city where everyone seems to be on the road. Despite the traffic nightmare which Chicago poses, it is still an interesting city to drive but why not let someone else do the driving? Take a day off (or days?!) and explore the soaring architecture of the city or just go anywhere you like without having to worry about the next turn or the mad over-taker on your left! And the most stylish and comfortable way to do it? - hire a Chicago limo!

Limousines spell luxury with a capital â€˜Lâ€™ and there is no better way of making a lasting impression o truly relaxing in a drive than being driven around in a limo. You simply want to have a good time, see the city in elegance or want to impress someone- renting a limo in Chicago is the answer! There are innumerable limo rental services in the city and with a bit of research you can come up with a good deal. It is best to reserve the limo and the chauffeur well in advance of the trip and if your friends can give you recommendations, so much the better.

When you make the booking, be sure to get the full details of the limousine about to be hired. Contrary to popular perception, a limousine does not only mean the long, black, stretch car from which you see elegantly shod feet stepping out! It just means that the car offers more room than usual at the back and by this definition even a sedan qualifies as a limousine. So, be sure to ask the details if you have been fantasizing about black stretch cars complete with minibars, otherwise you may just land up with a sedan.

Other than the type of the limousine, the company charges for mileage and waiting time. While hiring a limo service you have to be very particular about the timing as every second you keep the limo waiting, it gets added to your account. The other option is to get a flat rate which normally covers the O' Hare International Airport, the Midway Airport, the Chicago loop and the suburban towns. In this type of booking, a fixed rate is charged no matter what the mileage or time taken to reach the destination because of heavy traffic. The waiting charges are on top of the rental rate. Another option is to avail of hourly rates where no matter how many miles you cover or the number of stoppages you make does not matter. A minimum number of hours have to be paid for with every additional hour becoming cheaper. This type of service is ideal for party hopping or city tours where multiple stops have to be made.

Making a grand entry at a party, for a special occasion or just to see the city- hiring a limo in Chicago is the way to do things in style!
