Article published on March 21st 2012 | Customer Service

For properly storing papers and making them presentable, it is very essential to bind them. Among various binding techniques, comb binding is most useful for mid sized offices. We shall be reviewing one latest comb binding machine being offered by Fellowes. This machine is Fellowes 52168 Quasar 500 comb binding machine.

Some basic parameters of this binding machine are as below:

* This machine has punch capacity of 20 sheets.

* It can bind 500 sheets at one time.

* It is 5.125â€• in height, 18.125â€• in width and 15.375â€• in length.

* It does not have a foot pedal and has maximum comb size of 2â€•.

* It comes in one color- metallic grey.

These parameters help it delivering best results. It has lots of advantages over its contemporary competitors. These advantages are:

a.) Gives the option of vertical document loading resulting in higher efficiency.

b.) Offers continuous binding enhancing productivity.

c.) Has built in comb tray lowering maintenance cost.

d.) Accurate punching every time due to adjustable rotary edge guiding centers.

e.) Has integrated document measuring device which lowers measuring time by at least 50%.

The best mix of style and performance, Fellowes 52168 Quasar binding machine is perfect for all medium and large offices. This is very efficient machine and can punch 20 sheets at one time and bind 500 sheets at one go. Also, other smart features like inbuilt measurement tool and attached comb tray adds to convenience and reduces setup time considerably. Punching quality and binding result are best in the business. This is result of adjustable rotary edge guiding centers. These centers adjust the entire sheets at uniform place and hence deliver a great result.

For all office binding requirements, this machine is one stop solution. This machine can be delivered in 3 to 5 days from order date. With 2 year warranty offered by the manufacturer, this machine comes at zero maintenance. Fellowes is also giving 10 combs free with a new machine which further reduces cost of operation. A binding starter pack teaching all the finer aspects of binding is also given to buyer. It is easy to operate and can be used all employees of the office.

We hope purchase of Fellowes Quasar 500 comb binding machine will make your office management an easy task.
