A car rental or car hire agency is a company that rents automobile for short periods of time (generally ranging from a few hours to a few weeks) for a fee. It is an elaborate form of a rental shop, often organized with numerous local branches (which allow a user to return a vehicle to a different location), and primarily located near airports or busy city areas and often complemented by a website allowing online reservations. Car rental agencies primarily serve people who have a car that is temporarily out of reach or out of service, for example travellers who are out of town or owners of damaged or destroyed vehicles who are awaiting repair or insurance compensation. Because of the variety of sizes of their vehicles, car rental agencies may also serve the self-moving industry needs, by renting vans or trucks, and in certain markets other types of vehicles such as motorcycles or scooters may also be offered.

Hong Kong van hire is one of the most significant car hire agency and they provide one of the best service, regarding your need of removal the goods from one place to another. Car rentals are subject to many conditions which vary from one country to another and from one company to another. Generally the vehicle must be returned in a good condition and sometimes must not exceed a maximum driven distance, otherwise extra fees may be incurred. So, you have to maintain some car rental conditions before hiring the car. Car rental companies operate by purchasing or leasing a number of fleet vehicles and renting them to their customers for a fee. Rental fleets can be structured in several ways â€“ they can be owned outright (these are known as â€˜risk vehiclesâ€™ becau the car rental operator is taking a risk on how much the vehicle will be sold for when it is removed from service), they can be leased, or they can be owned under a guaranteed buy-back program arranged directly through a manufacturer or manufacturerâ€™s financial arm (these are known as â€˜repurchase vehiclesâ€™ because the manufacturer outlines the exact price of original sale and of repurchase at the end of a defined term).
