The last time that I booked a hire car from Heathrow to London Airport it was anything but cheap. I needed a vehicle at short notice and seeing as it was a Sunday my options were severely limited. The hire company I chose was one of the larger organizations and I asked them for a Ford Focus or something similar and ended up with a Kia Ceed. Knowing nothing about Kias I was disappointed at first but the car turned out to be a good little run-around. I`ve since found out that Cheap Taxi to Heathrow Airport is available through a specific company who conducts bookings online. If I need a car from the airport in the future I`ll certainly be taking full advantage of the Cheap Taxi to Heathrow. It would seem they have a wide range of vehicles and their prices are vastly reduced compared to that of their rival companies. The prices that are quoted include Meet and Greet. I might have paid a premium for my car hire in the past but I know where to go in the future. I`ll be heading to the company who provides Cheap Taxi to Heathrow.
