Best Information for Travel to South America by Tracy Narvaez

Article published on June 21st 2012 | Destinations

The South American continent exhibits some of the most exiting cultural nuances the world has to offer. The region is sure to leave a lasting impact on all those who get the chance to experience its lively vibrations. Travel to South America can change a person's life but there are some things one should know beforehand to make the most out of their trip.

Booking reservations may seem easy enough, unfortunately one may encounter some big surprises. Remember that most of this continent has a very differs greatly in the weather department from North America and Europe. A myriad of sub-climates are present that range from thick tropical jungle to high mountain desert.

It's important to consider that the seasons in the Southern hemisphere are the opposite of their Northern Counterpart. Taking a vacation during what is summer in the US will leave a traveler smack in the middle of Chile's winter. Most of the tropical areas experience a winter that is extremely wet and rainy. This means an abundance of insects and the necessity for protective clothing.

Choosing to travel during the more favorable seasons can be a bit more costly. Should price be a large concern it may be worth the risk to vacation during winter months. Discounts on airfare and lodging are quite common. It is even possible to find rates for less than half of the high season prices. At the same time many restaurant and hotel owners select these low periods as an optimal opportunity for renovations or for vacationing themselves. It is normal to see a fair amount of closures during this period.

The continent is full of exciting sites with both historical and natural splendor. Several companies and private organizations offer expeditions and tour packages to some of the distinct marvels found throughout the landscape. There is something for everyone with trips that range from trek's to Machu Picchu in Peru to tango vacations in Argentina.

Traveling this way has multiple positive attributes. Much of the stress and culture shock a person is likely to experience when traveling to a foreign land can be alleviated by the knowledge that everything is lain out ahead of time. Important aspects like trustworthy tour guides and airport transports are not left up to chance. This leaves less room to get ripped off or fall victim to theft. Frequently, the best way to find a reputable tour is to go through a travel agent or trust the word of friends and family who have taken similar trips.

Making reservations ahead of time is a good idea but may find individuals in sticky situations. Some web presentations are misleading and it is not uncommon for people to find themselves paying an arm and a leg for a run down hotel. A good way to avoid this is to read plenty of other traveler reviews. Travel websites usually have wide forums for people to express their opinions and give detailed accounts of such experiences. Having a plan B can save a lot of heartache during stressful moments.

There are so many compelling reasons to travel to South America it can be hard to know where to start. The nightlife, food and music seep out of every nook and cranny. It is an experience that can change a person's spirit for years to come.
