Escapade Tricks near Delhi and NCR by Sara Hasan

Article published on February 23rd 2012 | Destinations

What can be the most exciting way to spend your weekend? If this is the question in your mind, then the answer is Delhi and its NCR. Delhi and its adjacent region offer some amazing places for adventure activities during your weekend. The examples of this are Adventure Islands, World of Wonders, Splash Water Park, The Platinum Resort etc. These adventure islands are especially made by keeping in mind, all the necessities and the requirements of the customers. One will be never get bore here as the water parks and adventure islands offers incredible rides and adventure fun.

If we discuss about their properties, these weekend gateways are full of adventure, fun and frolic. The main and the most convenient feature of these adventure islands are that just the entry ticket gives you the access to every ride and every pool. Each adventure island offers about 30-40 rides and 2-3 water parks. There are different types of rides such as cyclone, carrousel, striking car, bush buggies, flip in and out, wild wheels, sky riders, rocking tug, download ride, fire brigade, twister, splash dunk, air bus, trail train, float boat, lighting bold, Z force and space jump etc. You will be having so much of adventure and fun here that you can not even imagine.

The World of Wonder, amusement park which is located in NOIDA is Asia's largest amusement park. This fun is divided in to two sections named Road Show and La Fiesta with numerous other attractions. The section Road Show is specially made for the strong hearted people who can afford to enjoy that level of adventure. Road Show is the merger of different rides, music and not to forget, the entertainment. La Fiesta is the other section of the park, especially designed for family and kids. There are different rides and water parks like Swan Ride and Train Ride, which are especially for kids. This area is spread over 4 acres. So, you can imagine yourself that how much of fun and variety you can have there. How can we forget about our little ones? Here, you will find very special ride for toddlers as well. It is the Mini Jet Ride, where toddlers can sit with their parents or siblings and can fly high. With take off and landing facility, this ride also has the circular motion facility. And now talking of the growing children, the Space Shot Ride will surely give them an experience of their weightlessness.

Every amusement park is full of adventure and fun but side by side all of these amusement parks are designed by keeping the safety precautions in mind. The water slides and other rides are technically designed in a way that it is not harmful to ride them. The water used in all swimming pools and water rides is hygienically safe and tested so that it could not harm your skin and body. As far as the rides are concerned, they are also technically safe. Apart from them, you will also find the crew members and staff members roaming here and there for any emergency.

So, what are you thinking of? Just pack your bag and spend your this weekend in to a lush green, natureâ€™s admired and full of magic and harmony adventure and amusement park.
