Article published on December 8th 2011 | Destinations

The time table of Indian Railways is well established and monitored, covering almost 65000 km routes covering 7500 stations.

Earlier times, Indian railways time table was printed region wise and distributed. They were printed every half year and released for the benefit of commuters.

All the regional time tables of Indian Railways were also carrying All India train information, in a separate section, while detailed time table would be given for the trains of the region. An Indian Railways time table reader used to go table after table linking connection from one junction to the other finally to find the route, although long distance tickets were issued as a single ticket.

Nowadays, the Indian railways time table is smartly coming digitally through its â€˜e-rail.inâ€™ portal, which is well distributed with a number of links, whilst the main tabs give you facility to find your train and related details. For instance, you select the â€˜Fromâ€™ station as New Delhi and the â€˜Toâ€™ stati Mumbai, instantaneously a pop up appears prompting you to click for seeing the trains connecting these two stations.

You are taken to a table containing the details of all the trains connecting these two stations, with their departure and arrival times, total hours of travel, days of operation, besides availability of pantry car and similar information.

As you click the â€˜Train nameâ€™ in the pop up table, besides the basic information about fares, the detailed departure and arrival details of every station it stops by, appears for your perusal.

When you click on the â€˜fareâ€™ that appears, you are taken to another window in which you can see the ultimate amount you have to remit after considering the concessions etc. For instance, you will see 16688 Navyug Express Slip in the New Delhi â€“Madurai table, and when you click on â€˜Navyug Express you will see below another screen appear giving the fare in Indian Rupees as 2129 and US dollars 48.

The portal â€˜e-rail.inâ€™ time table of Indian Railways is well structured and if you click an inappropriate figure or tab, it immediately gives a courteous feed back of your error, besides attending to your requirement is by pop ups and prompts.

Added facility in the digital Indian Railways time table is that when you click the â€˜AVâ€™ meaning availability, a pop up comes informing you the fare details, including those for senior citizens, male and female, besides normal tariff. Similarly, when you click â€˜AVâ€™ you are given berth availability details for the entire week.

Besides this basic information, the portal of Indian Railways time table also gives you a number of links and tables, including All India Rail Map, Fare table etc.
