Kerala is a treasure trove of countless treasures. Although a narrow strip of land nestled between Western Ghats and Arabian Sea, Kerala is enormously blessed with bounties of nature. Kerala is thereby a popular tourism destination. Kerala is situated in the Malabar Coast of south western India. With its unspoilt beaches, enchanting hill stations, placid backwaters, exotic flora and fauna, emerald landscape and sophisticated art forms â€“ Kerala lures even the most discerning of tourists to its fold.

The pristine beaches are prominent of attractions that are visited by great number of tourists during tours in kerala. The world is slowly discovering Maraikulam beach. It is a vivacious beach. It offers a serene atmosphere away from the hustle and bustle of city life. Varkala beach offers a marvelous sight. In ninety seventies Hippies swarmed to Kovalam. From then on fame of Kovalam shot up. It found a place in global tourism map. Formed by three crescent shaped beaches, the most endearing quality about Kovalam is that it has not lost its primordial innocence despite the highly corrupting influences of commercialization and crowdedness. The seas of Kovalam are shallow. This fact combined with calm weather makes it safe for swimming. Most are unable to resist the temptation to sunbath in the white sandy beaches of Kovalam. To top it all the accommodation facilities and quality of service available in Kovalam are superlative. Most of the resorts are situated in the vicinity of beach letting one savor the eerie ambience throughout the stay.
