Article published on February 25th 2012 | Destinations

When internet facility came in to the mankind, eCommerce stepped in and in due course all the activities connected with modern living were bought in line to communicate electronically, which is a great boon to civilization in every dimension. It started with Air travel, then Rail travel and closely followed Online Bus booking facilitating travelers both in terms of time and in terms of comfort.

Most of the Bus transport organizations have lined up their traffic timings, streamlining a standard method of operation with regard to Bus types, Seating arrangements, and other entertainment factors, so that the traveler making Online bus booking will know what one is doing.

Almost all the travel agencies have their portals to do Bus booking online, with standard features, such as

â€¢Search engine presenting a menu of buses that are available for travel, with fare details, pick up points and drop points, above all the entertainment features like TV, Music etc

â€¢Seat map of the particular bus chosen for travel in such a manner the traveler can select the seat one wants to be fixed

â€¢Payment gateway for online payments through Credit Cards or net banking process

The privacy settings and payment gateway are highly secure in the Online bus booking transactions and the traveler can confidently go in for travel bookingbus online rather than going to the Travel agentâ€™s office to make the bus booking.

APSRTC is maintaining such an excellent portal for online bus booking, with a requirement of one time registration first with the travelerâ€™s eMail ID and a Password, to be used for every bus booking online done thereafter, the home page giving details about the popular routes the corporation operates and the search engine for indicating the places and dates of travel, when the further process of booking follows in the next screens.

APSRTCâ€™s portal has arrangements with the Secure gateway with all Credit Card Organisations and a traveler can book tickets unhesitatingly to any destination in an around Andhra Pradesh.

Among the long distance buses Volvo takes the prime place because of its suitability to accommodate a good interior whilst it is sturdy to withstand Indian roads for longer distances, safely and at the same time maintaining good speed of travel, besides the fact Volvo buses are environmentally favourable because of their combination of low emissions, lower noise level and low energy utilization.
