Top Four Things to Look for in a San Francisco Hotel by Jacobbeaty

Article published on February 27th 2012 | Destinations

Booking a hotel in San Francisco takes some careful planning and a well-informed decision. If budget is your primary consideration, you donâ€™t need to sweat. There are affordable and even cheap hotels that have the accommodations to make your stay worthwhile. To enjoy your trip to the wonderful city, here are top four things to look for in a San Francisco hotel.

Location

San Francisco is a city with many iconic landmarks and attractions. In addition, it is known for being Americaâ€™s best restaurant city. This is remarkable for a city that is geographically small. If you are on a short vacation, but donâ€™t want to miss the things only San Francisco has, then book a hotel in a strategic location.

A strategically located hotel means that it is near the cityâ€™s attractions enough for a short walk, a quick cab ride, or a cable car ride away. For instance, if you want to take a picture of the Golden Gate Bridge, try one of the seafood restaurants at the Fishermanâ€™s Wharf or shop in a department store in Union Square, both of which offer a view of the famous bridge. It would, therefore, be very convenient for you if your hotel is at the heart of downtown San Francisco. Hotels found in that area are just a ten to twenty minute walk or a cable car ride away from the said tourist spots.

Room Types

When searching for San Francisco Union Square hotels, it is also important to see what types of rooms they offer. If you are traveling alone, booking a standard room with one double bed is not likely to be a problem. If youâ€™re on a honeymoon, then there are hotels which provide suites that include a living room area and other amenities. However, if youâ€™re with your family or friends, then book a hotel suite that provides spacious accommodations.

Amenities

Look for San Francisco cheap hotels which offer amenities that give you more value for your money. Hotels nowadays offer Wi-Fi access which can help you if youâ€™re on a business trip. Basic amenities you should look for in a hotel room are a private bath, cable TV, and a plush pillow-top bed. It is a plus if the hotel offers free continental breakfast, an in-room coffeemaker, as well as hair dryer.

Services

Hotels in Union Square San Francisco have services that can make you feel pampered. Look for a hotel with friendly and professional staff who delivers efficient room service. Keep in mind though that other services mean additional charges on your hotel bill. This includes round the clock valet parking service, discounted luxury bus tour, and hotel to airport shuttle services.
