Victoria Falls Best Waterfall in Africa by Julia Roger

Article published on June 21st 2012 | Destinations

How many people know the African Name of Victorian Falls? It is MOSI OA TUNYA. It means "The smoke that Thunders". The name is quite appropriate for this gigantic waterfall that is around 108 mt long in height. It is one of the most famous tourist attractions within Africa. International tourists keep on coming to this place again and again to observe this ravishing gift of nature. But it is necessary to utilize spare time the best possible way. For how long can one keep staring at the falls? Also, it is necessary to count the number of days that is available for holidaying. Also, it is necessary to apply for DE VISA. DE stands for Double Entry. This type of VISAs allows people to visit neighboring countries without any additional permission. It is always better to avail VISAs from the POE zones than to look at embassies.

It is always better to stay at a nearby place overnight to enjoy the best view of the falls. However, this natural beauty can be best viewed from 1:00 pm till 5:00 pm. It will take not more than 2 hours to observe the falls and take some photographs. There are also several Victoria Falls activities available for adventure lovers. But to enjoy these, one needs to live within tents close to the falls. There are plenty of green spaces available. In fact, tenting near the Zambezi River will be the best option to avail. Zambezi is the main source for this amazing falls. Some of the major activities include helicopter ride, sunset cruise, Lion safari, and river rafting. Livingstone is the nearest city from Victoria Falls. There are some motels and inns available in there for overnight stay purpose. Accommodation is normally quite cheap within Livingstone, which is located within the Southern Province in Zambia.
