Freestanding Gates for Dogs by John Smith

Article published on December 4th 2011 | E-Commerce

Rover Company manufactures the finest Freestanding Gates for Dogs on the market today in the USA. These Freestanding Gates for Dogs are a great fit for any home because they are portable, stable, and best of all theyâ€™re durable enough to last a lifetime. Your Freestanding Gate for Dogs from Rover Company is entirely adjustable, allowing you to cover narrow and wide openings with the same gate and only takes a minute to adjust. The light weight material means you can move it back and forth without strenuous effort, and the attached stabilizing legs are easy to work around.

Other Pet Gates leave scuff marks on your door frames and floors as you move them back and forth. Rover Company Freestanding Gates for Dogs are made of lightweight PVC that doesnâ€™t scratch, and they are light enough to be carried just about anywhere. The Freestanding Gates for Dogs include foot stabilizers that keep them upright, while requiring minimum assembly and no drilling. Youâ€™ll find the rover Dog Gates are very stable, and dogs canâ€™t climb up them. A variety of heights are available ranging from 18â€• high to 48â€• high so no matter what breed you have, you can find an acceptable Freestanding Gate for Dogs. Like most Rover Company products, the Freestanding Gates for Dogs are made of durable PVC vinyl. The white plastic is easily cleaned and resistant to rust, allowing you to use it for years and years. The light Pet Gates only weigh a few pounds, meaning you can easily carry them throughout the house, and you wonâ€™t need to worry about dropping them. Lastly, the PVC material is more resistant to damage than wooden gates, no tools needed to assemble. Visit us online and just click and we ship. Please visit our website for more information. Our mission is simply to be the definitive website store in providing your pets with the highest quality and most uniquely designed dog beds, animal enclosures, dog gates, feline cathouses, and pet hammocks available anywhere in the world.
