Article published on March 21st 2012 | Education

The learning sector in our country has been observing scores of remarkable reforms ever since India got her independence. The worsening standard of education may be attributed to the verity that merely 12 percent that of all the school going kids ultimately continue their learning up to the standard 10 and then again a measly 10% of individuals turn out to be entitled for higher learning.

It is a shame for us that the instructive infrastructure is not in actual being utilized as it should be in providing the education to the majority of people. In recent times, it is assumed that the introduction of an assortment of distant learning study programs is going to revolutionize the system of learning. Nevertheless, the matter of concern is: are these study programs in actual fact competent of bringing about the modifications in the learning method and give that needed education to mass?

Distant education process is entirely different from usual method of learning. Distance learning mode of imparting education is extremely poles apart from usual class room learning. This type of learning has indeed grown in importance in the past few years. It has lead to the huge number of distant educational institutes as well as Open University being established in every corner of the nation. At the present time, learners are getting themselves employed into some kind of jobs or others at very young age and even previous to carrying out their necessary learning. As a result, they are seeking courses which may smooth the progress of the achievement of their much loved learning devoid of giving up employments. Here, the degree of distant education comes into their salvage.

Helps to bring the career on correct track. There are never-ending examples of learners who have not been capable to carry out their learning procedure through usual means as a result of more than a few grounds. All such learners may bring their professional career on correct track simply by pursuing several courses through distant education offered by the Open University.

In view of the fact that customary colleges as well as universities have inadequate number of seats accessible, enormous number of learners is getting themselves enrolled in a variety of programs offered by distance learning.

Furthermore, there are a lot of far-flung places in the nation where carrying on higher learning is simply like a dream for people. However at the present, populace in those places can carry on their preferred study programs efficiently and all the credit goes to such distant education system.
