These schools have contributed to a large extent in giving Pune city the status of â€˜education hubâ€™. Extensive weightage is given to English in these schools. Hindi is the second language while Marathi is the third language which is taught from class 5 to class 8. Focus is given to social behavior and other group activities so that students can excel in various other fields along with education. They also have facilities for home pick and drop service for students and teaching staffs. These schools have taken Pune education to a great height.
